QUALITY POLICY

- /2 Aeroacom Specialty Fittings designs, manufactures, assembles, distributes, examines and tests fluid connectors, flexible piping systems and enclosure systems for the petroleum, chemical, power generating, aerospace and other industries which demand high quality engineered products.
- /1 /2 Our vision is to consistently meet our customers' requirements by providing the highest value from excellent customer service to superior quality products at competitive pricing. Our vision also includes consistently meeting the needs of our interested parties and external providers through clear and concise communication to bring about their best quality service and products. We also strive to reduce risk in all areas, departments and processes in order to reduce and prevent undesired effects.
- /2 Our Quality Management System policies, controls and documentation are developed, reviewed and updated through the active participation of management as well as our employees. We are continually learning, improving and implementing new ideas, skills and knowledge for the mutual benefit of our customers, employees, external providers, interested parties and the Company.
- /2 The ASF team is committed to comply with the requirements of ISO 9001:2015 and continually improve the effectiveness of our quality management system to ensure customer satisfaction. Through extensive training and safety management practices, we are committed to creating the best possible work environment for everyone at ASF.
